All you 35 Buddhas and others as many as there are Tathagatas, Arhants, Fully Enlightened Ones who are existing, sustaining and living, who are in the nature of the Three Holy Bodies, Dharmakaya, Sambhogaka and Nirmanakaya, all you Fully Awakened Beings in the 10 Directions, please pay attention to me.

In this birth and throughout births that have endlessly begun, in all places of birth while spinning through the cycle of existence, I have done wrong deeds throughout every realm, have provoked them to be done and have rejoiced at them being done.

I have taken the wealth from places of offering, the wealth of Those Intent on Virtue and the wealth of Those Intent on Virtue in the Ten Directions or have provoked such a theft or have rejoiced at such a theft.

I have committed the five extreme heinous actions, having killed mother, father or Arhant, created conflict within the Sangha and drawn the blood of a Buddha. I have provoked others to commit them and rejoiced at their commitment.

I have collected the Five Terrible Karmas, having destroyed a stupa, killed a Bodhisattva or holy teacher, defiled a nun and stolen holy objects. I have provoked others to create these actions and rejoiced at their creation.

I have been involved in actually taking the path of the 10 negative actions – having killed, stolen, indulged in unnatural lusts, lied, slandered, spoken harshly and senselessly and held covetous, angersome and heretical thoughts. I have commanded others to be involved in such and rejoiced in their involvement.

Having been obscured by these obstacles from my previous actions, I shall be led into the a realm of hell denizens or shall be led to a place of birth as an animal, or shall be led to the land of hungry ghosts or shall be reborn in a remote irreligious land and shall be born a barbarian or shall be born among long-living celestial beings, or shall become incomplete in sensory organs or shall come to hold wrong views, or shall become displeased with the presence of a Fully Awakened Being.

But now, in the presence of the Fully Awakened Beings, the Endowed Transcendent Destroyers who became primordially aware, who became visionary, who became witness, who became valid, who see by their knowledge, I acknowledge and lay bare whatever such obstacles from my precious actions I have, all of them, without concealing any, without keeping anything secret and hereafter I pledge to refrain from such actions.

All you Fully Awakened Transcendent Destroyers please pay attention to me.

In this birth and throughout births that have endlessly begun in cyclic existence, and in all *Samsaric* realms of rebirth, whatever root of virtue there is in my giving even a morsel of food to just one being who is born as an animal and whatever root of virtue is in my maintaining discipline and whatever root of virtue is in my abiding in pure conduct and whatever root of virtue is in my acting to spiritually ripen sentient beings, and whatever root of virtue is in generating my mind towards supreme full awakening and whatever root of virtue is in unsurpassable primordial awareness, having collected them, brought them together with those of others, and bound them all by dedicating them completely to that of which there is no higher, to that which is even higher than the high, to the supreme one over even the supreme, I fully dedicate for the peerless awakening of absolute perfection.

Just as the Fully Awakened Transcendent Destroyers of the past have dedicated, and just as the Fully Awakened Transcendent Destroyers who have not yet come will be dedicating and just as the Fully Awakened Transcendent Destroyers living now making dedications so also do I make this dedication.

All wrongs individually I confess. In all merit I rejoice. All Fully Awakened Beings, I beseech and request you – may I and others attain the ultimate and supreme pristine awareness that is unsurpassable. Whoever are supreme men, women and living conquerors, those of the past and likewise those that are yet to come, praising their Excellences, all like a limitless ocean, I join my palms in prayer, going close to them for refuge.
